

**Clelio Dinis Leite**

CEO & Founder LEITEK Innovative Solutions / President - Portuguese Unmanned Aviation Systems...  
5mo · Edited

LEITEK Innovative Solutions participated today in the event Axis OPEN, a series of events in several cities around Europe held by Axis Communications, which took place in Portugal this year. The Portuguese edition was held at Convento do Beato, Lisbon, on the 14th of May.

LEITEK Innovative Solutions is a Technology Integrator Partner of Axis Communications, a industry leader in network video and video analytics.

These events offer participants the chance to learn about all the latest developments in the security sector and create connections with industry leaders.

The event was extremely well organized and special thanks to @Ricardo Pereira, Paulo Silva e Maria Santafe that made our participation possible.
