We are thrilled to announce a special collaboration with [LEITEK Innovative Solutions](#) to bring our wildfire & chemical threat detection and air quality monitoring system, N5SHIELD® to Portugal!

In April, N5 and Leitek successfully conducted onsite testing of our integrated system, which includes Leitek's advanced camera, SafeForest, in cooperation with Laboratório de Estudos de Incêndios florestais, at Lousã, Portugal. Our system detected the fire from a burn pile within approximately 3 minutes, demonstrating its efficacy.

We thank [Clelio Dinis Leite](#) for partnering with us on this important journey. Together, we look forward to enhancing the safety of communities by protecting them from wildfires!
